Congress Proceedings
All authors have to submit extended abstracts for the book of abstracts by using the submission system.

Extended abstracts will be reviewed by at least two independent reviewers, and all accepted oral and poster abstracts will be published in the Congress Book of Abstracts.

Selected papers (full texts) will be published as a special issue in one of the following three journals: The Journal of Engineered Fibers and Fabrics, indexed in SCI; the International Journal of Clothing Science and Technology, indexed in SCI; Tekstil ve Mühendis, indexed in SCOPUS. The journals will implement their peer review process and may impose article processing or open access fees.
