*We are pleased to invite you to participate in **"9th International Technical Textiles Congress"** which will be held from **17 to 18 October 2025** in **Izmir, Türkiye. 9th International Technical Textiles Congress** intends to be a global forum to present and discuss recent innovations and new techniques in Technical Textiles. The congress has been organized by the representatives of the universities, industries, and civil society organizations. While the Dokuz Eylul University Textile Engineering Department is the main organizer, the Chamber of Textile Engineers (TMO), the Association of Universities for Textiles (AUTEX), and the Balkan Society of Textile Engineers (BASTE) are the partners of the congress. This occasion will be a great chance for new contacts, scientific discussions, and exchange of experiences by offering a unitary platform of opportunities for experienced and new-starter industrialists in the field of technical textiles. Moreover, the selected papers can be published in the scientific journals, which are the Journal of Engineered Fibers and Fabrics, International Journal of Clothing Science and Technology, and Tekstil ve Mühendis.*

*We look forward to meeting you in the **9th International Technical Textiles Congress in Izmir, Türkiye.***

Prof. Dr. Ümit Halis ERDOĞAN & Prof. Dr. Gökhan ERKAN
